## Quick Start

Hello! You're just a few steps away from getting your Arlo Video Doorbell up and running.

To see these steps before you start, watch our How-To video by scanning this QR code with your mobile device. (You can use a free QR code scanning app.)

Installation Video

- 1 Find your doorbell, chime box, and the electrical panel at your home.
- 2 Download the Arlo app from the App Store or Google Play.
- 3 Follow the step by step instructions in the Arlo app to install.

# What's in the box

Arlo Video Doorbell  
and Mounting Plate  
(These parts are attached.)

Angled Mounting plate

Power Kit

Release pin

Wall screws and anchors

Optional wire extensions, wire  
fasteners, and extra screws

# Tools

- A Phillips screwdriver is required to install the doorbell (not provided).
- You might also benefit from having a drill, a level, and a ladder (to reach the chime).

# Power requirements

Voltage between 16 – 24VAC and a 10VA transformer.

You can use a voltmeter to check the voltage. If your voltage doesn't meet the power requirements, and you need to install or upgrade a transformer, contact a licensed electrician or visit [arlo.com](http://arlo.com) for information about installation services.

**WARNING: To prevent fire and injury, connect the Arlo Video Doorbell and Power Kit only to voltage between 16 – 24VAC.**
